

Accessing Science Fusion for Students & Families

Canvas app on APS iPad

(great for kids in 3-5)

1. In iPad settings go to Canvas and toggle on (set to green) "Open external tools in Safari"
2. Open your homeroom teacher's course in Canvas
3. Click on Think Central in left margin
4. Click "open in new tab"

More detailed instructions are linked [here](#).

**must be logged into APS Google account to access*

Canvas via Internet Browser

(anyone, but particularly K-2 students without APS device but access to internet at home)

1. Student login at <https://myaccess.apsva.us/>
2. Launch Canvas
3. Open your homeroom teacher's course in Canvas
4. Click on Think Central in left margin
5. Click "open in new tab" (there are no assignments unless you teacher has created some)

More detailed instructions are linked [here](#).

**must be logged into APS Google account to access*

A huge THANK YOU to APS elementary student Loren K who helped check & edit these directions!
